

3rd Quarter 2013 CONFERENCE CALL

Réjean Robitaille, President & CEO Michel C. Lauzon, CFO

August 30, 2013 at 2 p.m. 1-866-689-5910, Code 3739731

FORWARD-LOOKING STATEMENTS

In this document and in other documents filed with Canadian regulatory authorities or in other communications, Laurentian Bank of Canada may from time to time make written or oral forward-looking statements within the meaning of applicable securities legislation. Forward-looking statements include, but are not limited to, statements regarding the Bank's business plan and financial objectives. The forward-looking statements contained in this document are used to assist the Bank's security holders and financial analysts in obtaining a better understanding of the Bank's financial position and the results of operations as at and for the periods ended on the dates presented and may not be appropriate for other purposes. Forward-looking statements typically use the conditional, as well as words such as prospects, believe, estimate, forecast, project, expect, anticipate, plan, may, should, could and would, or the negative of these terms, variations thereof or similar terminology.

By their very nature, forward-looking statements are based on assumptions and involve inherent risks and uncertainties, both general and specific in nature. It is therefore possible that the forecasts, projections and other forward-looking statements will not be achieved or will prove to be inaccurate. Although the Bank believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will prove to have been correct.

The Bank cautions readers against placing undue reliance on forward-looking statements when making decisions, as the actual results could differ considerably from the opinions, plans, objectives, expectations, forecasts, estimates and intentions expressed in such forward-looking statements due to various material factors. Among other things, these factors include capital market activity, changes in government monetary, fiscal and economic policies, changes in interest rates, inflation levels and general economic conditions, legislative and regulatory developments, competition, credit ratings, scarcity of human resources and technological environment. The Bank further cautions that the foregoing list of factors is not exhaustive. For more information on the risks, uncertainties and assumptions that would cause the Bank's actual results to differ from current expectations, please also refer to the Bank's Annual Report under the title "Integrated Risk Management Framework" and other public filings available at www.sedar.com.

With respect to the anticipated benefits from the acquisitions of the MRS Companies¹ and AGF Trust Company (AGF Trust) and the Bank's statements with regards to these transactions being accretive to earnings, such factors also include, but are not limited to: the fact that synergies may not be realized in the time frame anticipated; the ability to promptly and effectively integrate the businesses; reputational risks and the reaction of B2B Bank's or MRS Companies' and AGF Trust's customers to the transactions; and diversion of management time on acquisition-related issues.

The Bank does not undertake to update any forward-looking statements, whether oral or written, made by itself or on its behalf, except to the extent required by securities regulations.

NON-GAAP FINANCIAL MEASURES

The Bank uses both GAAP and certain non-GAAP measures to assess performance. Non-GAAP measures do not have any standardized meaning prescribed by GAAP and are unlikely to be comparable to any similar measures presented by other companies. These non-GAAP financial measures are considered useful to investors and analysts in obtaining a better understanding of the Bank's financial results and analyzing its growth and profit potential more effectively.

ANOTHER GOOD QUARTER

- Net income: adjusted net income up 13% year-over-year
- Balance sheet growth continued: loans and deposits increased by 16% and 10% respectively year-over-year
- Stable net interest margin at 1.68%
- Strong revenue growth up 14% year-over-year
- Excellent credit quality: continuing low loss ratio at 0.13% and declining trend in impaired loans

NET INTEREST MARGIN (NIM)

▶2 bps increase in NIM between Q3-2012 and Q3-2013 is mainly explained by:

- 6 bps from AGF Trust's higher margin loans
- 2 bps due to lower liquidities
- -4 bps reflecting the low interest rate environment, a flatter yield curve and pricing
- -2 bps due to lower loan prepayment penalties

OTHER INCOME

In millions of dollars	Q3-2013	Q3-2012	Variation
Fees and commissions on loans and deposits	\$27.5	\$25.1	9%
Income from brokerage operations	14.4	12.5	15%
Investment account fees	8.2	7.2	15%
Card service revenues	7.6	6.4	18%
